# PLAYING THE GAME

You are not playing against the Dealer or the other Players. You are simply trying to get the best possible poker hand by using your three cards and the two community cards, which the Dealer will expose.

The winners are paid according to the payout schedule (pair of tens or better, two pair, etc.).

After looking at their first three (3) cards, the Players may ask for their first bet back or they may Let it Ride.

The Dealer, after burning his or her bottom card, turns up one community card. The Player may then ask for their second bet back or Let It Ride.

The Dealer then turns up the second community card and in a counterclockwise direction, turns the three (3) cards of each player face up. After all losing wagers have been collected, the Dealer pays all winning hands according to the payout schedule.

Each Player will be required to keep the three (3) cards in full view of the Dealer at all times. After each Player has made a decision regarding bet number 2, each Player's cards shall be placed face down on the designated area of the layout, and they may not touch the cards again.

Regardless of the decision made regarding the first or second bet, the Player may not take back the third bet (Players cannot show their hands to other Players).

After placing three equal bets, a Player may add a dollar to "light up" the bonus spot. That Player is now automatically entered into a chance for BONUS payments for a hand of "3 of a Kind" or better.
